

Prof. Mei-Hwei Chang has won the 2013 TWAS Prize in Medical Sciences

Prof. Mei-Hwei Chang, the Director of Hepatitis Research Center of NTUH, has won the 2013 TWAS Prize in Medical Sciences.

TWAS, the world academy of sciences, is an international science academy founded in 1983 in Italy. TWAS represents the best of science in developing countries. Its main mission is to promote scientific excellence and capacity in the South for science-based sustainable development.

Prof. Chang is recognized for her contribution to proving the effect of hepatitis B vaccine in preventing human hepatocellular carcinoma and promoting the concept of cancer-preventive vaccine. Prof. Chang will lecture about research at TWAS's 25th General Meeting in 2014, where she will also receive a plaque and the prize money.
