

## 第四代即時同步遠距照護之智慧醫療

臺大醫院內科部  
何奕倫主任

Yi-Lwun Ho is Director of the Department of Internal Medicine and Director of the Telehealth Center at National Taiwan University Hospital (NTUH), Director of the Smart Health Technology R&D Center at National Taiwan University, and Professor of the Department of Internal Medicine at National Taiwan University School of Medicine, in Taipei, Taiwan.

Dr. Ho began his medical studies in 1983 at the National Taiwan University School of Medicine, receiving his MD in 1990. He then completed residency training in the Department of Internal Medicine of NTUH (1990-1993), and chose to specialize in cardiology, fulfilling his fellowship training in the Section of Cardiology, Department of Internal Medicine, NTUH (1993-1995). In 1998, Dr. Ho commenced doctoral studies at the Graduate Institute of Clinical Medicine, National Taiwan University College of Medicine; his PhD was conferred in 2003. He also completed an Executive MBA (EMBA) at the Graduate Institute of Information Management, National Taiwan University College of Management (2010-2012).

His current academic positions include Clinical Assistant Professor (since 2001) at National Taiwan University School of Medicine, and Assistant Professor at the Graduate Institute of Clinical Medicine, National Taiwan University College of Medicine (since 2006). He is also Director of the Heart Failure Center of NTUH, a position he has held since 2008. Dr. Ho previously served as Secretary of the Taiwan Society of Atherosclerosis and Cardiovascular Disease from 2001 to 2010.

Since his first publication in 1994, Dr. Ho has authored or co-authored around 130 articles in peer-reviewed journals, most recently with a focus on telehealth programs and their application to modern medical practice.
